Forensic Team: Forensic Accounting, Tax & Dispute
Resolution

About our Forensic Team

Wilder Coe is a long-established business advisory and accounting firm. Our [Forensic](#) team provides specialist independent expert services in business-related dispute resolution. We offer a multi-disciplinary approach combining forensic accounting, tax, and share valuation expertise, developed over decades of advising businesses, individuals, and legal professionals. In addition, we provide qualified and experienced ADR dispute resolution services for business disputes, particularly in respect of financial matters, including complex accounting, financial loss and share valuation issues.

We are regularly instructed in complex commercial disputes, shareholder and contractual matters, and high-value matrimonial proceedings, where clear, independent financial analysis is critical to the outcome.

Our work includes acting as party-appointed expert adviser and expert witness, and Single Joint Expert, supporting clients and legal advisers through negotiation, ADR and litigation. It also includes acting as ADR independent accountant expert determiner and as arbitrator in delivering binding dispute resolution.

We combine technical expertise with commercial experience – ensuring advice is not only robust, but practical and clearly communicated.

Our approach is partner-led, with direct access to senior specialists and a focus on delivering clarity in complex and often contentious situations.

Our experience includes:

- Business and share valuations in contentious matters
- Shareholder disputes, including contested buyout valuations, unfair prejudice claims
- Business disputes, including breach of contract, negligence, business interruption, unlawful distributions, directors' misfeasance
- M&A disputes, including completion accounts disputes, warranty claims
- Partnership disputes
- Matrimonial disputes
- Fraud investigations

Our Approach

Trusted advice. Clear thinking. Independent expertise.
